

M. Rayhan Zulkarnain

Bandar Lampung, Indonesia | rayhanzulkarnain@example.com | linkedin.com/in/ryhnixull | github.com/RYNIXULL

Professional Summary

Informatics Management student from State Polytechnic Of Lampung. A passionate and creative developer specializing in building interactive, high-performance web applications that blur the line between design and technology. My approach is rooted in the belief that digital experiences should be as emotionally resonant as they are functionally flawless, prioritizing fluid motion, precise typography, and uncompromising performance.
